Mail Order Price List

November 2014

Welcome to our Mail Order Price List.

Times are changing! If you have seen us at a show recently you will know how frustrating our Visa machine has been. Well, it has gone! We have given it up! No longer will we wave it around and run outside in the vain hope of catching a signal before it disappears! From now on our payments will be processed via PayPal. We can still take payment at shows etc, you DON'T need a PayPal account to use this system - we are the only ones that need such an account. We won't be able to accept telephone card orders, though, you will either have to send a cheque before we despatch the goods or pay a PayPal invoice by email. Once again - you DO NOT need a PayPal account in order to do this. PLEASE DO NOT JUST SEND A CHEQUE - DISCUSS WITH US FIRST AS POSTAGE WILL NEED TO BE ADDED.

We have also streamlined this list. All items that can no longer be sent by dear old Royal Mail have been removed (you will still be able to buy them in person) and so too have a few that we hardly ever send by mail. If you don't see what you want just ask - we probably have it anyway!

Prices in this price list are correct at time of going to press (E & O excepted), but are subject to change without notice if increased by manufacturers etc.

	Machine Needles	
	Choosing the correct machine needle can often avoid problems for the stitcher. If you are not sure which size to use, please do not hesitate to ask. Each type of thread is twisted differently and wears a groove in the needle as it is used. Using the same needle for different sorts of yarn is often the reason for snapping threads. If possible keep a different needle for each type of thread and change to a new one after 5 or so hours of constant use, more frequently if using metallic threads.
